

4057. WORKSHEET K - ANALYSIS OF PROVIDER-BASED HOSPICE COSTS

In accordance with 42 CFR 413.20, the methods of determining costs payable under title XVIII involve making use of data available from the institution's basic accounts, as usually maintained, to arrive at equitable and proper payment for services. The K series Worksheets must be completed by all hospital-based hospices. This worksheet provides for recording the trial balance of expense accounts from your accounting books and records. It also provides for reclassification and adjustments to certain accounts. The cost centers on this worksheet are listed in a manner, which facilitates the transfer of the various cost center data to the cost finding worksheets (e.g., on Worksheets K, K-4, Parts I & II, the line numbers are consistent, and the total line is set at 39). Not all of the cost centers listed apply to all providers using these forms.

Column 1--Obtain salaries to be reported from Worksheet K-1, column 9, line 3-38.

Column 2--Obtain employee benefits to be reported from Worksheet K-2 column 9, lines 3-38.

Column 3--If the transportation costs, i.e., owning or renting vehicles, public transportation expenses, or payments to employees for driving their private vehicles can be directly identified to a particular cost center, enter those costs in the appropriate cost center. If these costs are not identified to a particular cost center enter them on line 27.

Column 4--Obtain the contracted services to be reported from Worksheet K-3, col. 9, lines 3-38.

Column 5--Enter in the applicable lines all costs which have not been reported in columns 1 through 4.

Column 6--Enter the sum of columns 1 through 5 for each cost center.

Column 7--Enter any reclassifications among cost center expenses in column 6 which are needed to effect proper cost allocation. This column need not be completed by all providers, but is completed only to the extent reclassifications are needed and appropriate in the particular circumstances. Show reductions to expenses as negative amounts.

Column 8--Adjust the amounts entered in column 6 by the amounts in column 7 (increases and decreases) and extend the net balances to column 8. The total of column 8, line 39 must equal the total of column 6, line 39.

Column 9--In accordance with 42 CFR 413.9(c)(3), enter on the appropriate lines the amounts of any adjustments to expenses required under Medicare principles of reimbursements. (See §4016.)

Column 10--Adjust the amounts in column 8 by the amounts in column 9, (increases or decreases) and extend the net balances to column 10.

Transfer the amount in column 10, line 1 through 38 to the corresponding lines on Worksheet K-4, Part I, column 0, lines 1 through 38.

LINE DESCRIPTIONS

Lines 1 and 2--Capital Related Cost - Buildings and Fixtures and Capital Related Cost -Movable Equipment--These cost centers should include depreciation, leases and rentals for the use of the facilities and/or equipment, interest incurred in acquiring land and depreciable assets used for patient care, insurance on depreciable assets used for patient care and taxes on land or depreciable assets used for patient care.

Do not include in these cost centers the following costs: costs incurred for the repair or maintenance of equipment or facilities; amounts included in the rentals or lease or lease payments for repair and/or maintenance agreements; interest expense incurred to borrow working capital or for any purpose other than the acquisition of land or depreciable assets used for patient care; general liability of depreciable assets; or taxes other than those assessed on the basis of some valuation of land or depreciable assets used for patient care.

Line 3--Plant Operation and Maintenance--This cost center contains the direct expenses incurred in the operation and maintenance of the plant and equipment, maintaining general cleanliness and sanitation of plant, and protecting the employees, visitors, and agency property.

Plant Operation and Maintenance include the maintenance and service of utility systems such as heat, light, water, air conditioning and air treatment. This cost center also includes the cost of maintenance and repair of building, parking facilities and equipment, painting, elevator maintenance, performance of minor renovation of buildings, and equipment. The maintenance of grounds such as landscape and paved areas, streets on the property, sidewalk, fenced areas, fencing, external recreation areas and parking facilities are part of this cost center. The care or cleaning of the interior physical plant, including the care of floors, walls, ceilings, partitions, windows (inside and outside), fixtures and furnishings, and emptying of trash containers, as well as the costs of similar services purchased from an outside organization which maintains the safety and well-being of personnel, visitors and the provider's facilities, are all included in this cost center.

Line 4--Transportation-Staff--Enter all of the cost of transportation except those costs previously directly assigned in column 3. This cost is allocated during the cost finding process.

Line 5--Volunteer Service Coordination--Enter all of the cost associated with the coordination of service volunteers. This includes recruitment and training costs.

Line 6--Administrative and General--Use this cost center to record expenses of several costs which benefit the entire facility. If the option to componentize (also known as fragmentation or subscribing) administrative and general costs into more than one cost center is elected, eliminate line 6. Componentized A&G lines must begin with subscripted line 6.01 and continue in sequential order (i.e., 6.01 A&G shared costs, 6.02 A&G reimbursable costs, etcetera) Examples include fiscal services, legal services, accounting, data processing, taxes, and malpractice costs.

Line 7--Inpatient - General Care--This cost center includes costs applicable to patients who receive this level of care because their condition is such that they can no longer be maintained at home. Generally, they require pain control or management of acute and severe clinical problems which cannot be managed in other settings. The costs incurred on this line are those direct costs of furnishing routine and ancillary services associated with inpatient general care for which other provisions are not made on this worksheet.

Costs incurred by a hospice in furnishing direct patient care services to patients receiving general inpatient care either directly from the hospice or under a contractual arrangement in an inpatient facility is to be included in the visiting service costs section.

For a hospice that maintains its own inpatient beds, these costs include (but are not limited to) the costs of furnishing 24 hours nursing care within the facility, patient meals, laundry and linen services, and housekeeping. Plant operation and maintenance cost would be recorded on line 3.

For a hospice that does not maintain its own inpatient beds, but furnishes inpatient general care through a contractual arrangement with another facility, record contracted/purchased costs on Worksheet K-3. Do not include any costs associated with providing direct patient care. These costs are recorded in the visiting services section.

Line 8--Inpatient - Respite Care--This cost center includes costs applicable to patients who receive this level of care on an intermittent, nonroutine and occasional basis. The costs included on this line are those direct costs of furnishing routine and ancillary services associated with inpatient respite care for which other provisions are not made on this worksheet. Costs incurred by the hospice in furnishing direct patient care services to patients receiving inpatient respite care either directly by the hospice or under a contractual arrangement in an inpatient facility are to be included in visiting service costs section.

For a hospice that maintains its own inpatient beds, these costs include (but are not limited to) the costs of furnishing 24 hours nursing care within the facility, patient meals, laundry and linen services and housekeeping. Plant operation and maintenance costs would be recorded on line 3.

For A hospice that does not maintain its own inpatient beds, but furnishes inpatient respite care through a contractual arrangement with another facility, record contracted/purchased costs on Worksheet K-3. Do not include any costs associated with providing direct patient care. These costs are recorded in the visiting service costs section.

Line 9--Physician Services--In addition to the palliation and management of terminal illness and related conditions, hospice physician services also include meeting the general medical needs of the patients to the extent that these needs are not met by the attending physician. The amount entered on this line includes costs incurred by the hospice or amounts billed through the hospice for physicians' direct patient care services.

Line 10--Nursing Care--Generally, nursing services are provided as specified in the plan of care by or under the supervision of a registered nurse at the patient's residence.

Line 11--Nursing Care-Continuous Home Care--Enter the continuous home care portion of costs for nursing services provided by a registered nurse, licensed practical nurse, or licensed vocational nurse as specified in the plan of care by or under the supervision of a registered nurse at the patient's residence.

Line 12--Physical Therapy--Physical therapy is the provision of physical or corrective treatment of bodily or mental conditions by the use of physical, chemical, and other properties of heat, light, water, electricity, sound massage, and therapeutic exercise by or under the direction of a registered physical therapist as prescribed by a physician. Therapy and speech-language pathology services may be provided for purposes of symptom control or to enable the individual to maintain activities of daily living and basic functional skills.

Line 13--Occupational Therapy--Occupational therapy is the application of purposeful goal-oriented activity in the evaluation, diagnostic, for the persons whose function is impaired by physical illness or injury, emotional disorder, congenial or developmental disability, and to maintain health. Therapy and speech-language pathology services may be provided for purposes of symptom control or to enable the individual to maintain activities of daily living and basic functional skills.

Line 14--Speech/Language Pathology--These are physician-prescribed services provided by or under the direction of a qualified speech-language pathologist to those with functionally impaired communications skills. This includes the evaluation and management of any existing disorders of the communication process centering entirely, or in part, on the reception and production of speech and language related to organic and/or nonorganic factors. Therapy and speech-language pathology services may be provided for purposes of symptom control or to enable the individual to maintain activities of daily living and basic functional skills.

Line 15--Medical Social Services--This cost center includes only direct expenses incurred in providing Medical Social Services. Medical Social Services consist of counseling and assessment activities, which contribute meaningfully to the treatment of a patient's condition. These services must be provided by a qualified social worker, under the direction of a physician.

Lines 16 - 18--Counseling--Counseling Services must be available to both the terminally ill individual and family members or other persons caring for the individual at home. Counseling, including dietary counseling, may be provided both for the purpose of training the individual's family or other care giver to provide care, and for the purpose of helping the individual and those caring for him or her to adjust to the individual's approaching death. This includes dietary, spiritual, and other counseling services provided while the individual is enrolled in the hospice. Costs associated with the provision of such counseling are accumulated in the appropriate counseling cost center. Costs associated with bereavement counseling are recorded on line 35.

Line 19--Home Health Aide And Homemaker--Enter the cost of home health aide and homemaker services. Home health aide services are provided under the general supervision of a registered professional nurse and may be provided by only individuals who have successfully completed a home health aide training and competency evaluation program or competency evaluation program as required in 42 CFR 484.36.

Home health aides may provide personal care services. Aides may also perform household services to maintain a safe and sanitary environment in areas of the home used by the patient, such as changing the bed or light cleaning and laundering essential to the comfort and cleanliness of the patient.

Homemaker services may include assistance in personal care, maintenance of a safe and healthy environment and services to enable the individual to carry out the plan of care.

Line 20--Home Health Aide and Homemaker-Continuous Home Care--Enter the continuous care portion of cost for home health aide and/or homemaker services provided as specified in the plan of care and under the supervision of a registered nurse.

Line 21--Other-- Enter on this line any other visiting cost which cannot be appropriately identified in the services already listed.

Line 22--Drugs, Biological and Infusion Therapy--Only drugs as defined in §1861(t) of the Act and which are used primarily for the relief of pain and symptom control related to the individual's terminal illness are covered. The amount entered on this line includes costs incurred for drugs or biologicals provided to the patients while at home. If a pharmacist dispenses prescriptions and provides other services to patients while the patient is both at home and in an inpatient unit, a reasonable allocation of the pharmacist cost must be made and reported respectively on line 22 (drugs and Biologicals) and line 7 (Inpatient General Care) or line 8 (Inpatient Respite Care) of Worksheet K.

A hospice may, for example, use the number of prescriptions provided in each setting to make that allocation, or may use any other method that results in a reasonable allocation of the pharmacist's cost in relation to the service rendered.

Infusion therapy may be used for palliative purposes if you determine that these services are needed for palliation. For the purposes of a hospice, infusion therapy is considered to be the therapeutic introduction of a fluid other than blood, such as saline solution, into a vein.

Line 23--Analgesics--Enter the cost of analgesics.

Line 24--Sedatives/Hypnotics--Enter the cost of sedatives/hypnotics.

Line 25--Other Specify--Specify the type and enter the cost of any other drugs which cannot be appropriately identified in the drug cost center already listed.

Line 26--Durable Medical Equipment/Oxygen--Durable medical equipment as defined in 42 CFR 410.38 as well as other self-help and personal comfort items related to the palliation or management of the patient's terminal illness are covered. Equipment is provided by the hospice for use in the patient's home while he or she is under hospice care.

Line 27--Patient Transportation--Enter all of the cost of transportation except those costs previously directly assigned in column 3. This cost is allocated during the cost finding process.

Line 28--Imaging Services--Enter the cost of imaging services including MRI.

Line 29--Labs and Diagnostics--Enter the cost of laboratory and diagnostic tests.

Line 30--Medical Supplies--The cost of medical supplies reported in this cost center are those costs which are directly identifiable supplies furnished to individual patients.

These supplies are generally specified in the patient's plan of treatment and furnished under the specific direction of the patient's physician.

Line 31--Outpatient Service--Use this line for any outpatient services costs not captured elsewhere. This cost can include the cost of an emergency room department.

Lines 32 - 33--Radiation Therapy and Chemotherapy--Radiation, chemotherapy and other modalities may be used for palliative purposes if you determine that these services are needed for palliation. This determination is based on the patient's condition and your care giving philosophy.

Line 34--Other--Enter any additional costs involved in providing visiting services which has not been provided for in the previous lines.

Lines 35 - 38--Hospice Non Reimbursable Service--Enter in the appropriate lines the applicable costs. Bereavement program costs consists of counseling services provided to the individual's family after the individual's death. In accordance with §1814 (i)(1)(A) of the Social security Act bereavement counseling is a required hospice service, but it is not reimbursable.

Line 39--Total--Line 39 column 10, should agree with Worksheet A, line 116, column 7.

4058. WORKSHEET K-1 - COMPENSATION ANALYSIS - SALARIES AND WAGES

Enter all salaries and wages for the hospice on this worksheet for the actual work performed within the specific area or cost center in accordance with the column headings. For example, if the administrator also performs visiting services which account for 25 percent of that person's time, then enter 75 percent of the administrator's salary on line 6 (A&G) and 25 percent of the administrator's salary enter on line 10 (nursing care).

The records necessary to determine the split in salary between two or more cost centers must be maintained by the hospice and must adequately substantiate the method used to split the salary. These records must be available for audit by the contractor and the contractor can accept or reject the method used to determine the split in salary. When approval of a method has been requested in writing and this approval has been received prior to the beginning of a cost reporting period, the approved method remains in effect for the requested period and all subsequent periods until you request in writing to change to another method or until the contractor determines that the method is no longer valid due to changes in your operations.

Definitions

Salary--This is gross salary paid to the employee before taxes and other items are withheld, includes deferred compensation, overtime, incentive pay, and bonuses. (See CMS Pub. 15-1, Chapter 21.)

Administrator (Column 1)--

Possible Titles: President, Chief Executive Officer

Duties: This position is the highest occupational level in the agency. This individual is the chief management official in the agency. The administrator develops and guides the organization by taking responsibility for planning, organizing, implementing, and evaluating. The administrator is responsible for the application and implementation of established policies. The administrator may act as a liaison among the governing body, the medical staff, and any departments.

The administrator provides for personnel policies and practices that adequately support sound patient care and maintains accurate and complete personnel records. The administrator implements the control and effective utilization of the physical and financial resources of the provider.

Director (Column 2)--

Possible Titles: Medical Director, Director of Nursing, or Executive Director

Duties: The medical director is responsible for helping to establish and assure that the quality of medical care is appraised and maintained. This individual advises the chief executive officer on medical and administrative problems and investigates and studies new developments in medical practices and techniques.

The nursing director is responsible for establishing the objectives for the department of nursing. This individual administers the department of nursing and directs and delegates management of professional and ancillary nursing personnel.

Medical Social Worker (Column 3)--This individual is a person who has at least a bachelor's degree from a school accredited or approved by the council of social work education. These services must be under the direction of a physician and must be provided by a qualified social worker.

Supervisors (Column 4)--Employees in this classification are primarily involved in the direction, supervision, and coordination of the hospice activities.

When a supervisor performs two or more functions, e.g., supervision of nurses and home health aides, the salaries and wages must be split in proportion with the percent of the supervisor's time spent in each cost center, provided the hospice maintains the proper records (continuous time records) to support the split. If continuous time records are not maintained by the hospice, enter the entire salary of the supervisor on line 6 (A&G) and allocate to all cost centers through stepdown. However, if the supervisor's salary is all lumped in one cost center, e.g., nursing care, and the supervisor's title coincides with this cost center, e.g., nursing supervisor, no adjustment is required.

Total Therapists (Column 6)--Include in column 6, on the line indicated, the cost attributable to the following services:

Physical therapy	-	line 12
Occupational therapy	-	line 13
Speech pathology	-	line 14

Therapy and speech-language pathology may be provided for purposes of symptom control or to enable the individual to maintain activities of daily living and basic functional skill.

Physical therapy is the provision of physical or corrective treatment of bodily or mental conditions by the use of physical, chemical, and other properties of heat, light, water, electricity, sound, massage, and therapeutic exercise by or under the direction of a registered physical therapist as prescribed by a physician.

Occupational therapy is the application of purposeful, goal-oriented activity in the evaluation, diagnosis, and/or treatment of persons whose ability to work is impaired by physical illness or injury, emotional disorder, congenital or developmental disability, or the aging process, in order to achieve optimum functioning, to prevent disability, and to maintain health.

Speech-language pathology is the provision of services to persons with impaired functional communications skills by or under the direction of a qualified speech-language pathologist as prescribed by a physician. This includes the evaluation and management of any existing disorders of the communication process centering entirely, or in part, on the reception and production of speech and language related to organic and/or nonorganic factors.

Aides (Column 7)--Included in this classification are specially trained personnel employed for providing personal care services to patients. These employees are subject to Federal wage and hour laws. This function is performed by specially trained personnel who assist individuals in carrying out physician instructions and established plans of care. The reason for the home health aide services must be to provide hands-on, personal care services under the supervision of a registered professional nurse.

Aides may provide personal care services and household services to maintain a safe and sanitary environment in areas of the home used by the patient, such as changing the bed or light cleaning and laundering essential to the comfort and cleanliness of the patient. Additional services include, but are not limited to, assisting the patient with activities of daily living.

All Other (Column 8)--Employees in this classification are those not included in columns 1 - 7. Included in this classification are dietary, spiritual, and other counselors. Counseling Services must be available to both the terminally ill individual and the family members or other persons caring for the individual at home. Counseling, including dietary counseling, may be provided both for the purpose of training the individual's family or other care giver to provide care, and for the purpose of helping the individual and those caring for him or her to adjust to the individual's approaching death. This includes dietary, spiritual and other counseling services provided while the individual is enrolled in the hospice.

Total (Column 9)--Add the amounts of each cost center, columns 1 through 8, and enter the total in column 9. Transfer these totals to Worksheet K, column 1, lines as applicable. To facilitate transferring amounts from Worksheet K-1 to Worksheet K, the same cost centers with corresponding line numbers are listed on both worksheets. Not all of the cost centers are applicable to all agencies. Therefore, use only those cost centers applicable to your hospice.

4059. WORKSHEET K-2 - COMPENSATION ANALYSIS – EMPLOYEE BENEFITS
(PAYROLL RELATED)

Enter all payroll-related employee benefits for the hospice on this worksheet. See CMS Pub. 15-1, Chapter 20, for a definition of fringe benefits. Use the same basis as that used for reporting salaries and wages on Worksheet K-1. Therefore, using the same example as given for Worksheet K-1, enter

75 percent of the administrator's payroll-related fringe benefits on line 6 (A&G) and enter 25 percent of the administrator's payroll-related fringe benefits on line 10 (nursing care). Payroll-related employee benefits must be reported in the cost center in which the applicable employee's compensation is reported.

This assignment can be performed on an actual basis or the following basis:

- FICA - actual expense by cost center;
- Pension and retirement and health insurance (nonunion) (gross salaries of participating individuals by cost center);
- Union health and welfare (gross salaries of participating union members by cost center); and
- All other payroll-related benefits (gross salaries by cost center). Include non payroll-related employee benefits in the A&G cost center, e.g., cost for personal education, recreation activities, and day care.

Add the amounts of each cost center, columns 1 through 8, and enter the total in column 9. Transfer these totals to Worksheet K, column 2, corresponding lines. To facilitate transferring amounts from Worksheet K-2 to Worksheet K, the same cost centers with corresponding line numbers are listed on both worksheets.

4060. WORKSHEET K-3 - HOSPICE COMPENSATION ANALYSIS - CONTRACTED SERVICES/PURCHASED SERVICES.

The hospice may contract with another entity for the provision of non-core hospice services. However, nursing care, medical social services and counseling are core hospice services and must routinely be provided directly by hospice employees. Supplemental services may be contracted in order to meet unusual staffing needs that cannot be anticipated and that occur so infrequently it would not be practical to hire additional staff to fill these needs. You may also contract to obtain physician specialty services. If contracting is used for any services, maintain professional, financial and administrative responsibility for the services and assure that all staff meet the regulatory qualification requirements.

Enter on this worksheet all contracted and/or purchased services for the hospice. Enter the contracted/purchased cost on the appropriate cost center line within the column heading which best describes the type of services purchased. Costs associated with contracting for general inpatient or respite care would be recorded on this worksheet. For example, where physical therapy services are purchased, enter the contract cost of the therapist in column 6, line 12. If a contracted/purchased service covers more than one cost center, then the amount applicable to each cost center is included on each affected cost center line. Add the amounts of each cost center, columns 1 through 8, and enter the total in column 9. Transfer these totals to Worksheet K, column 4, corresponding lines. To facilitate transferring amounts from Worksheet K-3 to Worksheet K, the same cost centers with corresponding line numbers are listed on both worksheets.

4061. WORKSHEET K-4, PART I - COST ALLOCATION - GENERAL SERVICE COSTS AND, PART II - COST ALLOCATION - STATISTICAL BASIS

Worksheet K-4 provides for the allocation of the expenses of each general service cost center to those cost centers, which receive the services. The cost centers serviced by the general service cost centers include all cost centers within the provider organization, i.e., other general service cost centers, reimbursable cost centers, nonreimbursable cost centers. Obtain the total direct expenses from Worksheet K, column 10. To facilitate transferring amounts from Worksheet K to Worksheet K-4, Part I, the same cost centers with corresponding line numbers (lines 3 through 39) are listed on both worksheets.

Worksheet K-4, Part II, provides for the proration of the statistical data needed to equitably allocate the expenses of the general service cost centers on Worksheet K-4, Part I.

To facilitate the allocation process, the general format of Worksheets K-4, Parts I & II are identical. The column and line numbers for each general service cost center are identical on the two worksheets. In addition, the line numbers for each general, reimbursable, nonreimbursable, and special purpose cost centers are identical on the two worksheets. The cost centers and line numbers are also consistent with Worksheets K, K-1, K-2, and K-3.

The statistical bases shown at the top of each column on Worksheet K-4, Part II are the recommended bases of allocation of the cost centers indicated. If a different basis of allocation is used, the provider must indicate the basis of allocation actually used at the top of the column.

Most cost centers are allocated on different statistical bases. However, for those cost centers where the basis is the same (e.g., square feet), the total statistical base over which the costs are to be allocated will differ because of the prior elimination of cost centers that have been closed.

Close the general service cost centers in accordance with 42 CFR 413.24(d)(1) which states, in part, that the cost of nonrevenue-producing cost centers serving the greatest number of other centers, while receiving benefits from the least number of centers, is apportioned first. This is clarified in CMS Pub. 15-1, §2306.1, which further clarify the order of allocation for stepdown purposes. Consequently, first close those cost centers that render the most services to and receive the least services from other cost centers. The cost centers are listed in this sequence from left to right on the worksheet. However, the circumstances of an agency may be such that a more accurate result is obtained by allocating to certain cost centers in a sequence different from that followed on these worksheets.

NOTE: A change in order of allocation and/or allocation statistics is appropriate for the current fiscal year cost if received by the contractor, in writing, within 90 days prior to the end of that fiscal year. The contractor has 60 days to make a decision or the change is automatically accepted. The change must be shown to more accurately allocate the overhead or, if the allocation is accurate, it should be changed due to simplification of maintaining the statistics. If a change in statistics is made, the provider must maintain both sets of statistics until an approval is made. If both sets are not maintained and the request is denied, the provider reverts back to the previously approved methodology. The provider must include with the request all supporting documentation and a thorough explanation of why the alternative approach should be used. (See CMS Pub. 15-1, §2313.)

If the amount of any cost center on Worksheet K, column 10, has a credit balance, show this amount as a credit balance on Worksheet K-4, Part I, column 0. Allocate the costs from the applicable overhead cost centers in the normal manner to the cost center showing a credit balance. After

receiving costs from the applicable overhead cost centers, if a general service cost center has a credit balance at the point it is allocated, do not allocate the general service cost center. Rather, enter the credit balance on the first line of the column and on line 39. This enables column 6, line 39, to crossfoot to columns 0 and 5A, line 39. After receiving costs from the applicable overhead cost centers, if a revenue producing cost center has a credit balance on Worksheet K-4, Part I, column 6, do not carry forward a credit balance to any worksheet.

On Worksheet K-4, Part II, enter on the first line in the column of the cost center the total statistics applicable to the cost center being allocated (e.g., in column 1, capital-related cost - buildings and fixtures, enter on line 1 the total square feet of the building on which depreciation was taken). Use accumulated cost for allocating administrative and general expenses.

Such statistical base does not include any statistics related to services furnished under arrangements except where both Medicare and non-Medicare costs of arranged-for services are recorded in your records.

For all cost centers (below the cost center being allocated) to which the service rendered is being allocated, enter that portion of the total statistical base applicable to each.

The total sum of the statistical base applied to each cost center receiving the services rendered must equal the total statistics entered on the first line.

Enter on Worksheet K-4, Part II, line 39, the total expenses of the cost center to be allocated. Obtain this amount from Worksheet K-4, Part I from the same column and line number of the same column. In the case of capital-related costs - buildings and fixtures, this amount is on Worksheet K-4, Part I, column 1, line 1.

Divide the amount entered on line 39 by the total statistical base entered in the same column on the first line. Enter the resulting unit cost multiplier on line 40. Round the unit cost multiplier to six decimal places.

Multiply the unit cost multiplier by that portion of the total statistical base applicable to each cost center receiving the services rendered. Enter the result of each computation on Worksheet K-4, Part I in the corresponding column and line.

After the unit cost multiplier has been applied to all the cost centers receiving costs, the total expenses (line 39) of all of the cost centers receiving the allocation on Worksheet K-4, Part I, must equal the amount entered on the first line of the cost center being allocated.

The preceding procedures must be performed for each general service cost center. Each cost center must be completed on Worksheets K-4, Part I & II before proceeding to the next cost center.

After all the costs of the general service cost centers have been allocated on Worksheet K-4, Part I, enter in column 7 the sum of the expenses on lines 7 through 38. The total expenses entered in column 7, line 39, must equal the total expenses entered in column 0, line 39.

Column Descriptions

Column 1--Depreciation on buildings and fixtures and expenses pertaining to buildings and fixtures such as insurance, interest, rent, and real estate taxes are combined in this cost center to facilitate cost allocation.

Allocate all expenses to the cost centers on the basis of square footage of the space occupied. The square footage may be weighted if the person who occupies a certain area of space spends their time in more than one function. For example, if a person spends 10 percent of time in one function, 20 percent in another function, and 70 percent in still another function, the square footage may be weighted according to the percentages of 10 percent, 20 percent, and 70 percent to the applicable functions.

Column 2--Allocate all expenses (e.g., interest, and personal property tax) for movable equipment to the appropriate cost centers on the basis of dollar value.

Column 4--The cost of vehicles owned or rented by the agency and all other transportation costs which were not directly assigned to another cost center on Worksheet K, column 3, is included in this cost center. Allocate this expense to the cost centers to which it applies on the basis of miles applicable to each cost center.

This basis of allocation is not mandatory and a provider may use weighted trips rather than actual miles as a basis of allocation for transportation costs, which are not directly assigned. However, a hospice must request the use of the alternative method in accordance with CMS Pub. 15-1, §2313. The hospice must maintain adequate records to substantiate the use of this allocation.

Column 6--The A&G expenses are allocated on the basis of accumulated costs after reclassifications and adjustments.

Therefore, obtain the amounts to be entered on Worksheet K-4, Part II, column 6, from Worksheet K-4, Part I, columns 0 through 5.

A negative cost center balance in the statistics for allocating A&G expenses causes an improper distribution of this overhead cost center. Negative balances are excluded from the allocation statistics when A&G expenses are allocated on the basis of accumulated cost.

A&G costs applicable to contracted services may be excluded from the total cost (Worksheet K-4, Part I, column 0) for purposes of determining the basis of allocation (Worksheet K-4, Part II, column 5) of the A&G costs. This procedure may be followed when the hospice contracts for services to be performed for the hospice and the contract identifies the A&G costs applicable to the purchased services

The contracted A&G costs must be added back to the applicable cost center after allocation of the hospice A&G cost before the reimbursable costs are transferred to Worksheet K-5. A separate worksheet must be included to display the breakout of the contracted A&G costs from the applicable cost centers before allocation and the adding back of these costs after allocation. Contractor approval does not have to be secured in order to use the above described method of cost finding for A&G.

Worksheet K-4, Part II, Column 6A--Enter the costs attributable to the difference between the total accumulated cost reported on Worksheet K-4, Part I, column 5A, line 39 and the accumulated cost reported on Worksheet K-4, Part II, column 6, line 6. Enter any amounts reported on Worksheet K-4, Part I, column 5A for (1) any service provided under arrangements to program patients only that is not grossed up and (2) negative balances. Including these costs in the statistics for allocating administrative and general expenses causes an improper distribution of overhead.

In addition, report on line 6 the administrative and general costs reported on Worksheet K-4, Part I, column 6, line 6 since these costs are not included on Worksheet K-4, Part II, column 6 as an accumulated cost statistic.

The accumulated cost center line number must match the reconciliation column number. Include in the column number the alpha character "A", i.e., if the accumulated cost center for A&G is line 6 (A&G), the reconciliation column designation must be 6A.

Worksheet K-4, Part II, Column 6--The administrative and general expenses are allocated on the basis of accumulated costs. Therefore, enter the amount from Worksheet K-4, Part I, column 5A.

4062. WORKSHEET K-5 - ALLOCATION OF GENERAL SERVICE COSTS TO HOSPICE COST CENTERS

This worksheet distributes the hospital's overhead to the specific cost centers of the hospice.

4062.1 Part I - Allocation of General Service Costs to Hospice Cost Centers--Worksheet K-5, Part I, provides for the allocation of the expenses of each general service cost center of the hospital to those cost centers which receive the services.

Obtain the direct total expenses (column 0, lines 2 through 33) from Worksheet K-4 Part I, lines 7 through 38. The amounts on columns 0 through 23 and column 25, line 34 must agree with the corresponding amounts on Worksheet B, Part I, columns 0 through 23 and column 25, line 116.

Complete the amounts entered on lines 1 through 33, columns 1 through 23 and column 25 in accordance with the instructions in §4062.2.

NOTE: Worksheet B, Part I established the method used to reimburse direct graduate medical education cost (i.e., reasonable cost or the per resident amount). Therefore, this worksheet must follow that method. If Worksheet B, Part I, column 25, excluded the costs of interns and residents, column 25 on this worksheet must also exclude these costs.

In column 24, enter the total of columns 4A through 23.

In column 27, for lines 2 through 33, multiply the amount in column 26 by the unit cost multiplier on line 35, and enter the result in this column. The total of the amounts on lines 2 through 33 must equal the amount in column 26, line 1.

In column 28, enter on lines 2 through 33 the sum of columns 26 and 27. The total on line 34 equals the total in column 26, line 34.

4062.2 Part II - Allocation of General Service Costs to Hospice Cost Centers - Statistical Basis--Worksheet K-5, Part II, provides for the proration of the statistical data needed to equitably allocate the expenses of the hospital's general service cost centers on Worksheet K-5, Part I. To facilitate the allocation process, the general format of Worksheet K-5, Parts I and II, is identical.

The statistical basis shown at the top of each column on Worksheet K-5, Part II, is the recommended basis of allocation of the cost center indicated and must be consistent with the statistical basis utilized on Worksheet B, Part I.

Lines 1 - 33--On Worksheet K-5, Part II, for all cost centers to which the general service cost center is being allocated, enter that portion of the total statistical base applicable to each.

Line 34--Enter the total of lines 1 through 33 for each column. The total in each column must be the same as shown for the corresponding column on Worksheet B-1, line 116.

Line 35--Enter the total expenses for the cost center allocated. Obtain this amount from Worksheet B, Part I, columns as indicated, line 116.

Line 36--Enter the unit cost multiplier which is obtained by dividing the cost entered on line 35 by the total statistic entered in the same column on line 34. Round the unit cost multiplier to six decimal places.

Multiply the unit cost multiplier by that portion of the total statistic applicable to each cost center receiving the services. Enter the result of each computation on Worksheet K-5, Part I, in the corresponding column and line.

After the unit cost multiplier has been applied to all the cost centers receiving the services, the total cost (Part I, line 34) must equal the total cost on line 34, Part II.

Perform the preceding procedures for each general service cost center.

4062.3 Part III - Computation of the Total Hospice Shared Costs--This worksheet provides for the shared therapy, drugs, or medical supplies from the hospital to the hospice.

Column Description

Column 1--Where applicable, enter in column 1 the cost to charge ratio from Worksheet C, Part I column 9, lines as indicated.

Column 2--Where hospital departments provides services to the hospice, enter on the appropriate lines the charges, from the provider's records, applicable to the hospital-based hospice.

Column 3--Multiply the amount in column 2 by the ratios in column 1 and enter the result in column 3.

Line 11--Sum of column 3 lines 1 through 10.

4063. WORKSHEET K-6 - CALCUALTION HOSPICE OF PER DIEM COST

Worksheet K-6 calculates the average cost per day for a hospice patient. It is only an average and should not be misconstrued as the absolute.

Line 1--Transfer the total cost from Worksheet K-5, Part I, column 27, line 34 less column 27, line 33, plus Worksheet K-5, Part III, column 3 line 11. This line reflects the true cost including shared cost and excluding any non-hospice related activity.

Line 2--Enter the total unduplicated days from Worksheet S-9, column 6, line 5.

Line 3--Calculate the aggregate cost per day by dividing the total cost from line 1 by the total number of days from line 2.

Line 4--Enter the unduplicated Medicare days from Worksheet S-9, column 1, line 5.

Line 5--Calculate the aggregate Medicare cost by multiplying the average cost from column 4, line 3 by the number of unduplicated Medicare days on column 1, line 4 to arrive at the average Medicare cost.

Line 6--Enter the unduplicated Medicaid days from Worksheet S-9, column 2, line 5.

Line 7--Calculate the aggregate Medicaid cost by multiplying the average cost from line 3 by the number of unduplicated Medicaid days on line 6 to arrive at the average Medicaid cost.

Line 8--Enter the unduplicated SNF days from Worksheet S-9, column 3, line 5.

Line 9--Calculate the aggregate SNF cost by multiplying the average cost from line 3 by the number of unduplicated SNF days on line 8 to arrive at the average SNF cost.

Line 10--Enter the unduplicated NF days from Worksheet S-9, column 4, line 5.

Line 11--Calculate the aggregate NF cost by multiplying the average cost from line 3 by the number of unduplicated NF days on line 10 to arrive at the average NF cost.

Line 12--Enter the unduplicated Other days from Worksheet S-9, column 5, line 5.

Line 13--Enter the Aggregate cost for other days by multiplying the average cost from line 3 by the number of unduplicated Other days on line 12 to arrive at the average other cost.
