

4141. WORKSHEET H - ANALYSIS OF PROVIDER-BASED HOME HEALTH AGENCY COSTS

This worksheet provides for the recording of direct HHA costs such as salaries, fringe benefits, transportation, and contracted services as well as other costs from your accounting books and records to arrive at the identifiable agency cost. This data is required by 42 CFR 413.20. It also provides for the necessary reclassifications and adjustments to certain accounts prior to the cost finding calculations. Obtain these direct costs from your records in columns 1, 2 and 4. All of the cost centers listed do not apply to all agencies.

The HHA must maintain the records necessary to determine the split in salary (and employee-related benefits) between two or more cost centers and must adequately substantiate the method used to split the salary and employee-related benefits. These records must be available for audit by your contractor. Your contractor can accept or reject the method used to determine the split in salary. Any deviation or change in methodology to determine splits in salary and employee benefits must be requested in writing and approved by your contractor before any change is effectuated. Where approval of a method has been requested in writing and this approval has been received (prior to the beginning of the cost reporting period), the approved method remains in effect for the requested period and all subsequent periods until you request in writing to change to another method or until your contractor determines that the method is no longer valid due to changes in your operations.

Column 1--Enter all salaries and wages (a salary is gross amount paid to the employee before taxes and other items are withheld, including deferred compensation, overtime, incentive pay, and bonuses (See CMS Pub. 15-1, Chapter 21)) for the HHA in this column for the actual work performed within the specific area or cost center. For example, if the administrator spends 100 percent of his/her time in the HHA and performs skilled nursing care which accounts for 25 percent of that person's time, then 75 percent of the administrator's salary (and any employee-related benefits) is entered on line 5 (administrative and general-HHA) and 25 percent of the administrator's salary (and any employee-related benefits) is entered on line 6 (skilled nursing care). Enter the sum of column 1, lines 1 through 24 on line 25.

Column 2--Enter all payroll-related employee benefits for the HHA in the appropriate cost center in this column. See CMS Pub. 15-1, §§2144 - 2145 for a definition of fringe benefits. Entries are made using the same basis as that used for reporting salaries and wages in column 1. Therefore, 75 percent of the administrator's payroll-related fringe benefits is entered on line 5 (administrative and general - HHA) and 25 percent of the administrator's payroll-related fringe benefits is entered on line 6 (skilled nursing care). Enter the sum of column 2, lines 1 through 24 on line 25.

Report payroll-related employee benefits in the cost center where the applicable employee's compensation is reported. This assignment is performed on an actual basis or upon the following basis:

- FICA based on actual expense by cost center;
- Pension and retirement and health insurance (non union) based on gross salaries of participating individuals by cost centers;
- Union health and welfare based on gross salaries of participating union members by cost center; and

All other payroll-related benefits based on gross salaries by cost center

Include nonpayroll-related employee benefits in the administrative and general-HHA cost center. Costs for such items as personal education, recreation activities, and day care are included in the administrative and general - HHA cost center.

Column 3--If the transportation costs, i.e., owning or renting vehicles, public transportation expenses, or payments to employees for driving their private vehicles can be directly assigned to a particular cost center, enter those costs in the appropriate cost center. If these costs are not identifiable to a particular cost center, enter them on line 4. Enter the sum of column 3, lines 1 through 24 on line 25.

Column 4--Enter the contracted and purchased services amounts in the appropriate cost center in this column. If a contracted/purchased service covers more than one cost center, then include the amount applicable to each cost center on each affected cost center line. Enter the sum of column 4, lines 1 through 24 on line 25.

Column 5--From your books and records, enter on the applicable lines all other identifiable costs which have not been reported in columns 1 through 4. Enter the sum of column 5, lines 1 through 24 on line 25.

Column 6--Add the amounts in columns 1 through 5 for each cost center, and enter the totals in column 6.

Column 7--Enter any reclassifications among the cost center expenses listed in column 6 which are needed to effect proper cost allocation. This column need not be completed by all providers, but is completed only to the extent reclassifications are needed and appropriate in the particular circumstances. Show reductions to expenses as negative amounts.

Column 8--Add column 7 to column 6, and extend the net balances to column 8.

Column 9--In accordance with 42 CFR 413ff, enter on the appropriate lines the amounts of any adjustments to expenses required under the Medicare principles of reimbursement.

Column 10--Adjust the amounts in column 8 by the amounts in column 9, and extend the net balance to column 10.

Transfer the amounts in column 10, lines 1 through 25, to the corresponding lines on Worksheet H-1, Part I, column 0.

Line Descriptions

Lines 1 and 2--These cost centers include depreciation, leases and rentals for the use of facilities and/or equipment, interest incurred in acquiring land or depreciable assets used for patient care, insurance on depreciable assets used for patient care, and taxes on land or depreciable assets used for patient care.

Line 3--Enter the direct expenses incurred in the operation and maintenance of the plant and equipment, maintaining general cleanliness and sanitation of the plant, and protecting employees, visitors, and agency property.

Line 4--Enter all of the cost of transportation except those costs previously directly assigned in column 3. This cost is allocated during the cost finding process.

Line 5--Use this cost center to record the expenses of several costs which benefit the entire facility. Examples include fiscal services, legal services, accounting, data processing, taxes, and malpractice costs.

Line 6--Skilled nursing care is a service that must be provided by or under the supervision of a registered nurse. The complexity of the service, as well as the condition of the patient, are factors to be considered when determining whether skilled nursing services are required. Additionally, the skilled nursing services must be required under the plan of treatment.

Line 7--Enter the direct costs of physical therapy services by or under the direction of a registered physical therapist as prescribed by a physician. The therapist provides evaluation, treatment planning, instruction, and consultation.

Line 8--These services include (1) teaching of compensatory techniques to permit an individual with a physical impairment or limitation to engage in daily activities; (2) evaluation of an individual's level of independent functioning; (3) selection and teaching of task-oriented therapeutic activities to restore sensory-integrative function; and (4) assessment of an individual's vocational potential, except when the assessment is related solely to vocational rehabilitation.

Line 9--These are services for the diagnosis and treatment of speech and language disorders that create difficulties in communication.

Line 10--These services include (1) assessment of the social and emotional factors related to the individual's illness, need for care, response to treatment, and adjustment to care furnished by the facility; (2) casework services to assist in resolving social or emotional problems that may have an adverse effect on the beneficiary's ability to respond to treatment; and (3) assessment of the relationship of the individual's medical and nursing requirements to his or her home situation, financial resources, and the community resources available upon discharge from facility care.

Line 11--Enter the cost of home health aide services. The primary function of a home health aide is the personal care of a patient. The services of a home health aide are given under the supervision of a registered professional nurse and, if appropriate, a physical, speech, or occupational therapist. The assignment of a home health aide to a case must be made in accordance with a written plan of treatment established by a physician which indicates the patient's need for personal care services. The specific personal care services to be provided by the home health aide must be determined by a registered professional nurse and not by the home health aide.

Line 12--The cost of medical supplies reported in this cost center are those costs which are directly identifiable supplies furnished to individual patients and for which a separate charge is made. These supplies are generally specified in the patient's plan of treatment and furnished under the specific direction of the patient's physician.

Medical supplies which are not reported on this line are those minor medical and surgical supplies which would not be expected to be specifically identified in the plan of treatment or for which a separate charge is not made. These supplies (e.g., cotton balls, alcohol prep) are items that are frequently furnished to patients in small quantities (even though in certain situations, these items may be used in greater quantity) and are reported in the administrative and general (A&G) cost center.

Line 13--Enter the costs of vaccines exclusive of the cost of administering the vaccines. A visit by an HHA nurse for the sole purpose of administering a vaccine is not covered as an HHA visit under the home health benefit, even though the patient may be an eligible home health beneficiary receiving services under a home health plan of treatment. Section 1862(a)(1)(B) of the Act excludes Medicare coverage of vaccines and their administration other than the Part B coverage contained in §1861 of the Act.

If the vaccine is administered in the course of an otherwise covered home health visit, the visit is covered as usual, but the cost and charges for the vaccine and its administration must be excluded from the cost and charges of the visit. The HHA is entitled to separate payment for the vaccine and its administration under the Part B vaccine benefit.

The cost of administering pneumococcal, influenza, and hepatitis B vaccines is reimbursed under the outpatient prospective payment system (OPPS), but the actual cost of the pneumococcal, influenza, and hepatitis B vaccines are cost reimbursed. Additionally, the cost of administering the osteoporosis drugs is included in the skilled nursing visit while the actual cost of the osteoporosis drug is reimbursed at reasonable cost.

Enter on this line the vaccine and drug cost (exclusive of the cost to administer these vaccines) incurred for pneumococcal, influenza, and hepatitis B vaccines as well as osteoporosis drugs.

Some of the expenses includable in this cost center are the costs of syringes, cotton balls, bandages, etc., but the cost of travel is not permissible as a cost of administering vaccines, nor is the travel cost includable in the A&G cost center. The travel cost is non-reimbursable. Attach a schedule detailing the methodology employed to develop the administration of these vaccines. These vaccines are reimbursable under Part B only.

Line 14--Enter the direct expenses incurred in renting or selling durable medical equipment (DME) items to the patient for the purpose of carrying out the plan of treatment. Also, include all the direct expenses incurred by you in requisitioning and issuing the DME to patients.

Line 15 --Enter the telemedicine costs.

Lines 16-24—These lines identify nonreimbursable services commonly provided by a home health agency. These include home dialysis aide services (line 16), respiratory therapy (line 17), private duty nursing (line 18), clinic (line 19), health promotion activities (line 20), day care program (line 21), home delivered meals program (line 22), and homemaker service (line 23). The cost of all other nonreimbursable services is aggregated on line 24. Use this line throughout all applicable worksheets.

4142 WORKSHEET H-1 - COST ALLOCATION HHA GENERAL SERVICE COST

Worksheet H-1, Part I, provides for the allocation of the expenses of each HHA general service cost center to those cost centers which receive the services. The cost centers serviced by the general service cost centers include all cost centers within the home health agency, i.e., other general service cost centers, reimbursable cost centers, and nonreimbursable cost centers. Obtain the total direct expenses from Worksheet H, column 10. To facilitate transferring amounts from Worksheet H to Worksheet H-1, Part I, the same cost centers with corresponding line numbers (lines 1 through 25) are listed on both worksheets.

Worksheet H-1, Part II, provides for the proration of the statistical data needed to equitably allocate the expenses of the home health agency general service cost centers on Worksheet H-1, Part I. If there is a difference between the total accumulated costs reported on the Part II statistics and the total accumulated costs calculated on Part I, use the reconciliation column on Part II for reporting any adjustments. See §4120 for the appropriate usage of the reconciliation columns. For componentized A&G cost centers, the accumulated cost center line number must match the reconciliation column number.

To facilitate the allocation process, the general format of Parts I and II are identical. The column and line numbers for each general service cost center are identical on both parts. In addition, the line numbers for each general, reimbursable, and nonreimbursable cost centers are identical on the two parts of the worksheet. The cost centers and line numbers are also consistent with Worksheet H.

The statistical bases shown at the top of each column on Worksheet H-1, Part II, are the recommended bases of allocation of the cost centers indicated. If a different basis of allocation is used, the provider must indicate the basis of allocation actually used at the top of the column.

Most cost centers are allocated on different statistical bases. However, for those cost centers where the basis is the same (e.g., square feet), the total statistical base over which the costs are to be allocated will differ because of the prior elimination of cost centers that have been closed.

When closing the general service cost center, first close those cost centers that render the most services to and receive the least services from other cost centers. The cost centers are listed in this sequence from left to right on the worksheet. However, the circumstances of an agency may be such that a more accurate result is obtained by allocating to certain cost centers in a sequence different from that followed on these worksheets.

NOTE: An HHA wishing to change its allocation basis for a particular cost center or the order in which the cost centers are allocated must make a written request to its contractor for approval of the change and submit reasonable justification for such change prior to the beginning of the cost reporting period for which the change is to apply. The effective date of the change is the beginning of the cost reporting period for which the request has been made. In requesting the change, the agency must establish that the alternate basis or sequence of allocation is more accurate than that indicated on the official form. A mere demonstration that a cost allocation is different is not adequate to establish that it is more accurate.

On Worksheet H-1, Part II, enter on the first line in the column of the cost center the total statistics applicable to the cost center being allocated (e.g., in column 1, capital-related - buildings and fixtures, enter on line 1 the total square feet of the building on which depreciation was taken). Use accumulated cost for allocating administrative and general expenses.

Such statistical base does not include any statistics related to services furnished under arrangements except where both Medicare and non-Medicare costs of arranged for services are recorded in your records.

For all cost centers (below the cost center being allocated) to which the service rendered is being allocated, enter that portion of the total statistical base applicable to each. The total sum of the statistical base applied to each cost center receiving the services rendered must equal the total statistics entered on the first line.

Enter on Worksheet H-1, Part II, line 26, total expenses of the cost center to be allocated. Obtain this amount from Worksheet H-1, Part I, from the same column and line number used to enter the statistical base on Worksheet H-1, Part I. In the case of capital-related costs - buildings and fixtures, this amount is on Worksheet H-1, Part I, column 1, line 1.

Divide the amount entered on Worksheet H-1, Part II, line 26 by the total statistical base entered in the same column on the first line. Enter the resulting unit cost multiplier on line 27. Round the unit cost multiplier to six decimal places.

Multiply the unit cost multiplier by that portion of the total statistical base applicable to each cost center receiving the services rendered. Enter the result of each computation on Worksheet H-1, Part I, in the corresponding column and line.

After the unit cost multiplier has been applied to all the cost centers receiving costs, the total expenses (line 25) of all of the cost centers receiving the allocation on Worksheet H-1, Part I, must equal the amount entered on the first line of the cost center being allocated.

The preceding procedures must be performed for each general service cost center. Each cost center must be completed on both Part I and Part II before proceeding to the next cost center.

After all the costs of the general service cost centers have been allocated on Worksheet H-1, Part I, enter in column 6, line 25 the sum of the expenses on lines 6 through 24. The total expenses entered in column 6, line 25, equals the total expenses entered in column 0, line 25.

Column Descriptions

Column 1--Depreciation on buildings and fixtures and expenses pertaining to buildings and fixtures such as insurance, interest, rent, and real estate taxes are combined in this cost center to facilitate cost allocation. Allocate all expenses to the cost centers on the basis of square feet of area occupied. The square footage may be weighted if the person who occupies a certain area of space spends their time in more than one function. For example, if a person spends 10 percent of time in one function, 20 percent in another function, and 70 percent in still another function, the square footage may be weighted according to the percentages of 10 percent, 20 percent, and 70 percent to the applicable functions.

Column 2--Allocate all expenses (e.g., interest, personal property tax) for movable equipment to the appropriate cost centers on the basis of square feet of area occupied or dollar value.

Column 3--Allocate all expenses for plant operation and maintenance based on square feet.

Column 4--The costs of vehicles owned or rented by the agency and all other transportation costs which were not directly assigned to another cost center on Worksheet H, column 3, are included in this cost center. Allocate this expense to the cost centers to which it applies on the basis of miles applicable to each cost center.

This basis of allocation is not mandatory and a provider may use weighted trips rather than actual miles as a basis of allocation for transportation costs which are not directly assigned. However, an HHA must request the use of the alternative method in accordance with CMS Pub. 15-1, §2313. The HHA must maintain adequate records to substantiate the use of this allocation.

Column 5--The A&G expenses are allocated on the basis of accumulated costs after reclassifications and adjustments. Therefore, obtain the amounts to be entered on Worksheet H-1, Part II, column 5, from Worksheet H-1, Part I, columns 0 through 4.

A negative cost center balance in the statistics for allocating A&G expenses causes an improper distribution of this overhead cost center. Negative balances are excluded from the allocation statistics when A&G expenses are allocated on the basis of accumulated cost.

A&G costs applicable to contracted services may be excluded from the total cost (Worksheet H-1, Part I, column 0) for purposes of determining the basis of allocation (Worksheet H-1, Part II, column 5) of the A&G costs. This procedure may be followed when the HHA contracts for services to be performed for the HHA and the contract identifies the A&G costs applicable to the purchased services. The contracted A&G costs must be added back to the applicable cost center after allocation of the HHA A&G cost before the reimbursable costs are transferred to Worksheet H-2. A separate worksheet must be included to display the breakout of the contracted A&G costs from the applicable cost centers before allocation and the adding back of these costs after allocation. Contractor approval does not have to be secured in order to use the above described method of cost finding for A&G.

Column 6--For lines 6 through 24, add the amounts on each line in columns 4A and 5, and enter the result for each line in this column.

Line 25--The total costs entered in column 6, lines 6 through 24, must equal the total costs entered in column 0, lines 1 through 24.

Transfer the amounts on Worksheet H-1, Part I, column 6 to Worksheet H-2, Part I, column 0, as follows:

<u>From Worksheet H-1</u> <u>Part I, Column 6</u>	<u>To Worksheet H-2,</u> <u>Part I, Column 0</u>

4143. WORKSHEET H-2 - ALLOCATION OF GENERAL SERVICE COSTS TO HHA COST CENTERS

Use this worksheet only if you operate a certified SNF-based HHA as part of your complex. If you have more than one SNF-based HHA, complete a separate worksheet for each facility.

4143.1 Part I - Allocation of General Service Costs to HHA Cost Centers--Worksheet H-2, Part I, provides for the allocation of the expenses of each general service cost center of the SNF to those cost centers which receive the services. Worksheet H-2, Part II provides for the proration of the statistical data needed to equitably allocate the expenses of the general service cost centers on Worksheet H-2, Part I.

Obtain the total direct expenses (column 0, line 21) from Worksheet A, column 7, line 70. Obtain the cost center allocation (column 0, lines 1 through 20) from Worksheet H-1, Part I, column 6, lines as indicated. The amounts on line 21, columns 0 through 15 and column 17 must agree with the corresponding amounts on Worksheet B, Part I, columns 0 through 15 and column 17, line 70. Complete the amounts entered on lines 1 through 20, columns 1 through 15 and column 17.

Line 22--Enter the unit cost multiplier (column 18, line 1, divided by the sum of column 18, line 21 minus column 18, line 1, rounded to 6 decimal places. Multiply each amount in column 18, lines 2 through 20, by the unit cost multiplier, and enter the result on the corresponding line of column 19.

4143.2 Part II - Allocation of General Service Costs to HHA Cost Centers -Statistical Basis--To facilitate the allocation process, the general format of Worksheet H-2, Parts I and II, is identical.

The statistical basis shown at the top of each column on Worksheet H-2, Part II, is the recommended basis of allocation of the cost center indicated.

NOTE: If you wish to change your allocation basis for a particular cost center, you must make a written request to your contractor for approval of the change and submit reasonable justification for such change prior to the beginning of the cost reporting period for which the change is to apply. The effective date of the change is the beginning of the cost reporting period for which the request has been made. (See CMS Pub. 15-1, §2313)

If there is a change in ownership, the new owners may request that the contractor approve a change in order to be consistent with their established cost finding practices. (See CMS Pub. 15-1, §2313)

Lines 1 through 20--On Worksheet H-2, Part II, for all cost centers to which the general service cost center is being allocated, enter that portion of the total statistical base applicable to each.

Line 21--Enter the total of lines 1 through 20 for each column. The total in each column must be the same as shown for the corresponding column on Worksheet B-1, line 70.

Line 22--Enter the total expenses for the cost center allocated. Obtain this amount from Worksheet B, Part I, line 70, from the same column used to enter the statistical base on Worksheet H-2, Part II (e.g., in the case of capital-related cost buildings and fixtures, this amount is on Worksheet B, Part I, column 1, line 70).

Line 23--Enter the unit cost multiplier which is obtained by dividing the cost entered on line 22 by the total statistic entered in the same column on line 21. Round the unit cost multiplier to six decimal places.

Multiply the unit cost multiplier by that portion of the total statistics applicable to each cost center receiving the services. Enter the result of each computation on Worksheet H-2, Part I, in the corresponding column and line.

After the unit cost multiplier has been applied to all the cost centers receiving the services, the total cost (line 21 Part I) must equal the total cost on line 22, Part II.

Perform the preceding procedures for each general service cost center.

In column 16, Part I, enter the total of columns 3A through 15.

In column 19, Part I, for lines 2 through 20, multiply the amount in column 18 by the unit cost multiplier in column 19, line 22, and enter the result in this column. On line 21, column 19, enter the total of the amounts on lines 2 through 20. The total on line 21 equals the amount in column 18 line 1.

In column 20, enter on lines 2 through 20 the sum of columns 18 and 19. The total on line 21 equals the total in column 18, line 21.

4144. WORKSHEET H-3 - APPORTIONMENT OF PATIENT SERVICE COSTS

This worksheet provides for the apportionment of home health patient service costs to titles V, XVIII, and XIX. Titles V and XIX use the columns identified as Part A for each program.

4144.1 Part I - Computation of the Aggregate Program Cost--This part provides for the computation of the total cost and reasonable program cost by discipline based on program patient care visits as required by 42 CFR 413.20, 42 CFR 413.24 and 42 CFR 484.200. HHA services rendered on or after October 1, 2000, §1895 of the Social Security Act requires a home health agency to be paid based on a prospective payment system subject to periodic updates.

Cost Per Visit ComputationColumn Descriptions

Column 1--Enter the cost for each discipline from Worksheet H-2, Part I, column 20, lines as indicated. Enter the total on line 7.

Column 2--Where the SNF complex maintains a separate department for any of the cost centers listed on this worksheet, and the departments provide services to patients of the SNF's HHA, complete the amounts entered on lines 2 through 4. Enter the total on line 7.

Column 3--Enter the sum of columns 1 and 2.

Column 4--Enter the total agency visits from your records for each type of discipline on lines 1 through 6. Total visits reported in column 4 reflect visits rendered for the entire fiscal year and equal the visits reported on S-3, Part I, regardless of when the episode was completed.

Column 5--Compute the average cost per visit for each type of discipline. Divide the number of visits (column 4) into the cost (column 3) for each discipline.

Columns 6 and 9--To determine title XVIII, Part A, title V, or title XIX cost of service, multiply the number of Medicare or Medicaid covered visits in completed episodes made to beneficiaries (column 6) (from your records) by the average cost per visit amount in column 5 for each discipline. Enter the product in column 9.

NOTE: Statistics in column 7, lines 1 through 7, reflect statistics for services that are part of a home health plan, and thus not subject to deductibles and coinsurance. OBRA 1990 provides for the limited coverage of injectable drugs for osteoporosis. While covered as a home health benefit under Part B, these services are subject to deductibles and coinsurance. Report charges for osteoporosis injections in column 8, line 16, in addition to statistics for services that are not part of a home health plan.

Columns 7 and 10--To determine the Medicare Part B cost of service, not subject to deductibles and coinsurance, multiply the number of Medicare covered visits made in completed episodes to Part B beneficiaries (column 7) (from your records) by the average cost per visit amount in column 5 for each discipline. Enter the product in column 10. Note if the PS&R reports Part B services separately as "subject to and not subject to" deductibles and coinsurance, add the two reports together for each discipline.

Columns 6, 7, 9, 10 and 12--Enter visits and costs as applicable in columns 6, 7, 9, 10, and 12.

NOTE: The sum of visits reported in columns 6 and 7 must equal the corresponding amounts on Worksheet S-4, column 5, lines 24, 26, 28, 30, 32 and 34, respectively. These visits are reported for episodes completed during the fiscal year.

Columns 8 and 11--Do not use these columns.

Column 12--Enter the total program cost for each discipline (sum of columns 9 and 10). Add the amounts on lines 1 through 6, and enter this total on line 7.

Visits by CBSA--Lines 8 through 14-- Enter for each CBSA by discipline the CBSA code for Medicare program visits reimbursed under HHA PPS for each discipline for lines 8 through 13. Subscript each discipline line to accommodate multiple CBSAs serviced by your home health agency.

Column Descriptions

Column 1--Enter the CBSA code in which the corresponding HHA visits were rendered for each discipline on lines 8 through 13.

Columns 2 and 3--Enter the visit count for each of the corresponding disciplines for each CBSA.

Column 4, lines 8 through 14--These lines are shaded to prevent data input.

Line 14--Enter the total program visits for each discipline by adding lines 8 through 13 and subscripts, and enter this total on line 14.

Supplies and Drugs Cost Computation--Certain services covered by the program and furnished by a home health agency are not included in the cost per visit for apportionment purposes. Since an average cost per visit and HHA PPS do not apply to these items, develop and apply the ratio of total cost to total charges to program charges to arrive at the program cost for these services.

Column 1--Enter the facility costs in column 1, lines 15 and 16, from Worksheet H-2, Part I, column 20, lines 8 and 9, respectively.

Column 2--Enter the shared ancillary costs from Worksheet H-3, Part II, column 3, lines 4 and 5, respectively.

Columns 3 through 5--In column 3, enter the sum total of columns 1 and 2 on lines 15 and 16, respectively. Enter in column 4, lines 15 and 16, respectively, the total charges for such services in accordance with the instructions in §4142, lines 12 and 13. Develop a ratio of total cost (column 3) to total charges (column 4) (from your records), and enter this ratio in column 5.

Columns 6 through 8--Enter in the appropriate column the program charges for drugs and medical supplies charged to patients subject to cost reimbursement. The actual vaccine/drug cost for pneumococcal, influenza, hepatitis B and osteoporosis are cost reimbursed.

Do not enter charges for drugs and medical supplies subject to reimbursement on the basis of a fee schedule.

Line Descriptions for Columns 6 through 8

Line 15--Enter the program covered charges for medical supplies charged to patients for items not reimbursed on the basis of a fee schedule. Do not enter medical supply charges in columns 6, 7, and 8 subject to reimbursement on the basis of a fee schedule or OPSS as all medical supplies are covered under the HHA PPS benefit.

Line 16--This line represents pneumococcal, influenza, and hepatitis B vaccines costs and injectable osteoporosis drugs, but not the administration of these medications. Enter the program covered charges for drugs charged to patients for items not reimbursed on the basis of a fee schedule or OPSS. Enter in column 7 the program charges for pneumococcal vaccine and influenza vaccine exclusive of their respective administration costs. Enter in column 8 the program charges for hepatitis B vaccine and injectable osteoporosis drugs exclusive of their respective administration costs.

Columns 7 and 10--To determine the Medicare Part B cost, multiply the Medicare charges (column 7) by the ratio (column 5) for each line. Enter the product in column 10.

Columns 8 and 11--To determine the Medicare Part B cost, multiply the Medicare charges (column 8) by the ratio (column 5) for each line. Enter the result in column 11.

4144.2 Part II - Apportionment of Cost of HHA Services Furnished by Shared SNF Departments. Use this part only where the SNF complex maintains a separate department for any of the cost centers listed on this worksheet, and the departments provide services to patients of the SNF's HHA. Subscript lines 1-5, as applicable, if subscripted on Worksheet C.

Column 1--Where applicable, enter in column 1 the cost to charge ratio from Worksheet C, column 3, lines as indicated.

Column 2--Where SNF departments provide services to the HHA, enter on the appropriate lines the charges applicable to the SNF-based home health agency.

Column 3--Multiply the amounts in column 2 by the ratios in column 1, and enter the result in column 3. Transfer the amounts in column 3 to Worksheet H-3, Part I as indicated. If lines 1-5 are subscripted, transfer the aggregate of each line.

4145. WORKSHEET H-4 - CALCULATION OF HHA REIMBURSEMENT SETTLEMENT

This worksheet provides for the reimbursement calculation of titles V, XVIII Parts A and B, and XIX. This computation is required by 42 CFR 413.9, 42 CFR 413.13, and 42 CFR 413.30.

Worksheet H-4 consists of the following two parts:

- Part I - Computation of the Lesser of Reasonable Cost or Customary Charges
- Part II - Computation of HHA Reimbursement Settlement

4145.1 Part I - Computation of Lesser of Reasonable Cost or Customary Charges.--Services not paid based on a fee schedule or OPPS are paid the lesser of the reasonable cost of services furnished to beneficiaries or the customary charges made by the providers for the same services. This part provides for the computation of the lesser of reasonable cost as defined in 42 CFR 413.13(b) or customary charges as defined in the 42 CFR 413.13(e).

NOTE: Nominal charge providers are not subject to the lesser of cost or charges (LCC). Therefore, a nominal charge provider only completes lines 1, 2, and 9 of Part I. Transfer the resulting cost to line 10 of Part II.

Line Descriptions

Line 1--This line provides for the computation of reasonable cost reimbursed program services. Enter the cost of services from Worksheet H-3, Part I as follows:

<u>To Worksheet H-4, Line 1</u>	<u>From Worksheet H-3,</u>
Col. 2, Part B - Not subject to deductibles and coinsurance	Part I, col. 10, line 16
Col. 3, Part B - Subject to deductibles and coinsurance	Part I, col. 11, line 16

The above table reflects the transfer of the cost of pneumococcal and influenza vaccines from Worksheet H-3, Part I, column 10, line 9, to column 2 of this worksheet, and the cost of hepatitis B vaccines and injectable osteoporosis drugs from worksheet H-3, Part I, column 11, line 9 to column 3 of this worksheet.

Lines 2 through 6--These lines provide for the accumulation of charges which relate to the reasonable cost on line 1. Do not include on these lines (1) the portion of charges applicable to the excess costs of luxury items or services (see CMS Pub. 15-1, Chapter 21) and (2) provider charges to beneficiaries for excess costs as described in CMS Pub. 15-1, §2570. When provider operating costs include amounts that flow from the provision of luxury items or services, such amounts are not allowable in computing reimbursable costs.

Enter only the charges for applicable Medicare covered pneumococcal, influenza and hepatitis B vaccines and injectable osteoporosis drugs which are all cost reimbursed.

Line 2--Enter from your records in the applicable column the program charges for Part B not subject to deductibles and coinsurance, and Part B subject to deductibles and coinsurance.

Enter in column 2 the charges for Medicare covered pneumococcal and influenza vaccines (from worksheet H-3, line 9, column 7). In column 3, enter the charges for Medicare covered hepatitis B vaccines and osteoporosis drugs (from worksheet H-3, line 9, column 8).

Lines 3 through 6--These lines provide for the reduction of program charges when the provider does not actually impose such charges (in the case of most patients liable for payment for services on a charge basis) or fails to make reasonable efforts to collect such charges from those patients. If line 5 is greater than zero, multiply line 2 by line 5, and enter the result on line 6. Providers which do impose these charges and make reasonable efforts to collect the charges from patients liable for payment for services on a charge basis are not required to complete lines 3, 4, and 5, but enter on line 6 the amount from line 2. (See 42 CFR 413.13(b).) In no instance may the customary charges on line 6 exceed the actual charges on line 2.

Line 7--Enter in each column the excess of total customary charges (line 6) over the total reasonable cost (line 1). In situations when, in any column, the total charges on line 6 are less than the total cost on line 1 of the applicable column, enter zero on line 7.

Line 8--Enter in each column the excess of total reasonable cost (line 1) over total customary charges (line 6). In situations when, in any column, the total cost on line 1 is less than the customary charges on line 6 of the applicable column, enter zero on line 8.

Line 9--Enter the amounts paid or payable by workmen's compensation and other primary payers where program liability is secondary to that of the primary payer. There are several situations under which program payment is secondary to a primary payer. Some of the most frequent situations in which the Medicare program is a secondary payer include:

- Workmen's compensation,
- No fault coverage,
- General liability coverage,
- Working aged provisions,
- Disability provisions, and
- Working ESRD beneficiary provisions.

Generally, when payment by the primary payer satisfies the total liability of the program beneficiary, for cost reporting purposes only, the services are considered to be nonprogram services. (The primary payment satisfies the beneficiary's liability when the provider accepts that payment as payment in full. The provider notes this on no-pay bills submitted in these situations.) The patient visits and charges are included in total patient visits and charges, but are not included in program patient visits and charges. In this situation, no primary payer payment is entered on line 9.

However, when the payment by the primary payer does not satisfy the beneficiary's obligation, the program pays the lesser of (a) the amount it otherwise pays (without regard to the primary payer payment or deductible and coinsurance) less the primary payer payment, or (b) the amount it otherwise pays (without regard to primary payer payment or deductibles and coinsurance) less applicable deductible and coinsurance. Primary payer payment is credited toward the beneficiary's deductible and coinsurance obligation.

When the primary payer payment does not satisfy the beneficiary's liability, include the covered days and charges in both program visits and charges and total visits and charges for cost apportionment purposes. Enter the primary payer payment on line 9 to the extent that primary payer payment is not credited toward the beneficiary's deductible and coinsurance. Do not enter on line 9 the primary payer payments that are credited toward the beneficiary's deductible and coinsurance. The primary payer rules are more fully explained in 42 CFR 411.

4145.2 Part II - Computation of HHA Reimbursement Settlement.--

Line 10.--Enter in column 1 the amount in Part I, column 1, line 1 less the amount in column 1, line 9. Enter in column 2 the sum of the amounts from Part I, columns 2 and 3, line 1 less the sum of the amounts in columns 2 and 3 on line 9. This line will only include pneumococcal, influenza, hepatitis B and injectable osteoporosis drugs reduced by primary payor amounts.

Lines 11 through 20.--Enter in column 1 only for lines 11 through 14 as applicable, the appropriate PPS reimbursement amount for each episode of care payment category as indicated on the worksheet. Enter in column 1 only on lines 15 and 16, the appropriate PPS outlier reimbursement amount for each episode of care payment category as indicated on the worksheet. Enter on lines 17 through 19 the total DME, oxygen, prosthetics and orthotics payments, respectively, associated with home health PPS services (bill types 32 and 33). For lines 17 through 19 do not include any payments associated with services paid under bill type 34X. Obtain these amounts from your PS&R report.

Line 21.--Enter in column 2 the Part B deductibles billed to program patients. Include any amounts of deductibles satisfied by primary payer payments.

Line 23.--If there is an excess of reasonable cost over customary charges in any column on line 8, enter the amount of the excess in the appropriate column.

Line 25.--Enter in column 2 all coinsurance billable to program beneficiaries including amounts satisfied by primary payer payments. Coinsurance is applicable for services reimbursable under §1832(a)(2) of the Act.

NOTE: If the component qualifies as a nominal charge provider, enter 20 percent of the costs subject to coinsurance on this line. Compute this amount by subtracting Part B deductibles on line 21 and primary payment amounts in column 3, line 9 from Part B costs subject to coinsurance in column 3, line 1. Multiply the resulting amount by 20 percent and enter it on this line.

Line 27.--Enter the reimbursable bad debts in the appropriate columns. If recoveries exceed the current year's bad debts, line 27 will be negative.

Line 28.--Enter the gross reimbursable bad debts for dual eligible beneficiaries. This amount is reported for statistical purposes only. This amount must also be reported on line 27.

Line 29.--Enter the result of line 26 plus line 27.

Line 30.-- Enter any other adjustments.

Line 30.99.--*Enter the sequestration adjustment amount from the PS&R.*

Line 31.--*Enter the sum of the amount on line 30 minus lines 30.99, plus or minus line 30 and its subscripts no previously identified.*

Line 32.--Enter the interim payment amount from Worksheet H-5, line 4. For titles V and XIX, enter the interim payments from your records

Line 33.--For contractor use only: Enter the amount from Worksheet H-5, line 5.99.

Line 34.--*Enter the sum of the amount on line 31 minus lines 32 and 33.* Transfer to Worksheet S, Part III, line 4 as applicable.

Line 35.--Enter the program reimbursement effect of protested items. The reimbursement effect of the nonallowable items is estimated by applying reasonable methodology which closely approximates the actual effect of the item as if it had been determined through the normal cost finding process. (See §115.2.) A schedule showing the supporting details and computations for this line must be attached.

4146. WORKSHEET H-5 - ANALYSIS OF PAYMENTS TO PROVIDER-BASED HOME HEALTH AGENCIES FOR SERVICES RENDERED TO PROGRAM BENEFICIARIES

Complete this worksheet for Medicare interim payments only. (See 42 CFR 413.64.)

The column headings designate two categories of payments: Part A and Part B.

Complete the identifying information on lines 1 through 4. The remainder of the worksheet is completed by your contractor. Do not include on this worksheet any payments made for DME or medical supplies charged to patients that are paid on the basis of a fee schedule.

Line Descriptions

Line 1--Enter the total Medicare interim payments paid to the HHA for cost and HHA PPS reimbursed services. The amount entered reflects payments for all episodes concluded in this fiscal year. **Do not include any payments received for fee scheduled services.** The amount entered reflects the sum of all interim payments paid on individual bills (net of adjustment bills) for services rendered in this cost reporting period. The amount entered includes amounts withheld from your interim payments due to an offset against overpayments applicable to prior cost reporting periods. It does not include any retroactive lump sum adjustment amounts based on a subsequent revision of the interim rate, or tentative or net settlement amounts, nor does it include interim payments payable. If you are reimbursed under the periodic interim payment method of reimbursement, enter the periodic interim payments received for this cost reporting period.

Line 2--Enter the total Medicare interim payments payable on individual bills. Since the cost in the cost report is on an accrual basis, this line represents the amount of services rendered in the cost reporting period, but not paid as of the end of the cost reporting period, and does not include payments reported on line 1.

Line 3--Enter the amount of each retroactive lump sum adjustment and the applicable date.

Line 4--Enter the total amount of the interim payments (sum of lines 1, 2, and 3.99). Transfer these totals to the appropriate column on Worksheet H-4, Part II, line 32.

DO NOT COMPLETE THE REMAINDER OF WORKSHEET H-5. THE REMAINDER OF THE WORKSHEET IS COMPLETED BY YOUR CONTRACTOR

Line 5--List separately each tentative settlement payment after desk review together with the date of payment. If the cost report is reopened after the Notice of Program Reimbursement (NPR) has been issued, report all settlement payments prior to the current reopening settlement on line 5.

Line 6-- Enter the net settlement amount (balance due to provider or balance due to the program) for the NPR, or, if this settlement is after a reopening of the NPR, for this reopening.

NOTE: On lines 3, 5, and 6, when an amount is due from the provider to the program, show the amount and date on which you agree to the amount of repayment even though total repayment is not accomplished until a later date.

Line 7-- The sum of lines 4, 5.99, and 6, column 2, for inpatient Part A must equal Worksheet H-4, Part II, column 1, line 31. For Part B, the amount in column 4 must equal Worksheet H-4, Part II, column 2, line 31.

Line 8--Enter the contractor name and the contractor number in columns 1 and 2, respectively.
